Trent University

September 2025 - August 2026

Master of Science, Applied Modelling and Quantitative Methods

Peterborough, ON

University of Toronto

September 2020 - August 2025

Honours Bachelor of Science, Computer Science Specialist

Toronto, ON

EXPERIENCE

Ontario Ministry of Education

.NET Developer (Co-op)

Toronto, ON • September 2024 - December 2024

- Updated 10+ requirement-driven web-form and dashboard pages across four Ministry reporting collections, including one prepared for the 2025 reporting cycle.
- Built a reusable regression test collection with shared production features, designed to support pre-deployment checks for future related releases.

IT QA Assistant (Co-op)

Toronto, ON • January 2024 - August 2024

- Created and executed 20+ HP ALM test cases per release for Ontario school data-collection systems, validating workflows, submissions, and access permissions.
- Identified and documented 10+ defects per release with reproducible steps and expected results, helping developers diagnose and resolve issues efficiently.

Fresh City Farms

Quality Assurance Tester (Co-op)

Toronto, ON • January 2023 - April 2023

- Created and executed manual test cases across the full five-page web application, including Chrome, Firefox, and mobile-device testing.
- Logged 50+ Jira defects in the testing environment before release, with reproduction steps, screenshots, and expected-versus-actual behavior.

PERSONAL PROJECTS

French Desk [Live Demo](#)

- Replaced an unwieldy Google Doc with a searchable React/Supabase study system for 2,000+ personal records, cutting typical lookup time from about 1-2 minutes to roughly 10 seconds.
- Built daily quiz/review and AI-assisted vocabulary enrichment used to study about 50 items per day; added 14 unit tests for core quiz, import, and rich-text behavior.

Job Application Tracker [Live Demo](#)

- Replaced a dense Excel tracker with a visual pipeline board for 300+ real applications, showing status, role, company, and location immediately; cutting typical lookups from about 30 seconds to roughly 2 seconds.
- Implemented spreadsheet import, analytics, password recovery, and Job Agent utilities; added 12 unit tests to protect core formatting and parsing behavior.
